

SMARTfund Aggressive Growth OBSR

Short Report

Report for six months ended 03 May 2010

SMARTfund Aggressive Growth OBSR

INVESTMENT OBJECTIVE

To provide long term capital growth by investing in growth assets.

INVESTMENT POLICY

To achieve its investment objectives, the fund will invest in a diversified portfolio of funds and other permitted investments that have a similarly diversified character.

The portfolio will be invested in funds investing in growth assets, such as shares and property, to provide the potential for capital growth.

RISK PROFILE

This fund's risk profile is high.

MARKET & FUND REVIEW (PROVIDED BY OBSR)

The equity component of the portfolio has seen positive returns over the review period largely as a result of the weakness in sterling. A sizeable weighting in US equities has been particularly beneficial given the strength in the US Dollar while a very modest weighting in Europe has been accretive given the weakness of European stockmarkets and the Euro. In terms of underlying fund performance the US, Japan, emerging and Asian funds all added value against the broader peer group and their recognised benchmarks. The UK component of the portfolio struggled against a resurgent FTSE All Index. Many managers have been increasingly defensive in their positioning after a period of further strength in economically sensitive stocks. In aggregate most are emphasising larger companies with robust balance sheets and strong cashflows where there is some expectation that their current valuation is underappreciated by the market.

We had anticipated a period of consolidation for equities after such a strong 2009 and as this review is being completed that is now manifesting itself. The macroeconomic environment is likely to stay intensely volatile as developed world governments are forced to deal with the overhang caused by the banking crisis, resulting in robust fiscal tightening. In what is likely to be an era of thrift for the global economy, the portfolio will continue to emphasise the highest quality equity managers that are able to navigate a more difficult period in the markets. The current asset allocation as set by Barrie & Hibbert has been very beneficial given a relatively low weighting to Europe and a sizeable weighting to the US, which is outperforming at both an Index and currency level versus the UK.

ASSET ALLOCATION REVIEW (PROVIDED BY BARRIE & HIBBERT)

The strategic asset allocation for the Aggressive Growth SMARTfund consists entirely of Equity investments. In broad terms, this represents a globally diversified equity portfolio with a target volatility of approximately 18%. There remains a modest bias to UK equities, reflecting additional exchange rate risk associated with investment in non-UK assets, although this is less pronounced than in the lower risk SMARTfund portfolios.

PERFORMANCE REVIEW

03.11.2008 to 03.05.2010

Performance Table

	SMARTfund Aggressive Growth OBSR	Composite Benchmark	Cash
6 months to 03.05.2010	17.1%	15.6%	0.6%
03.11.08 to 03.05.2010	49.1%	39.8%	2.8%

PAST PERFORMANCE SHOULD NOT BE SEEN AS A GUIDE TO FUTURE PERFORMANCE

The performance figures above are based on a notional unit issued on the date of inception of the sub-fund, with an initial capital value the same as the minimum investment amount for that fund. The notional unit is based on the AMC including zero (0%) Adviser Charging and therefore reflects performance after all other expenses that would be included in the TER. The red benchmark is a composite of the following ETFs: LYXOR F ALL LYXOR ETF FTSE ALL SHARE (representing UK Equity), iShares S&P 500 (representing US Equity), iShares MSCI Europe ex-UK (representing European Equity), iShares MSCI JAPAN (representing Japan Equity), iShares MSCI Emerging Market (representing Emerging Market Equity) and iShares MSCI Pacific ex-Japan Idx (representing Asia ex Japan Equity). Each of these ETFs has been selected to represent an average market sector performance of an asset class included in the long term strategic asset allocation used to achieve the risk weighting of the fund. The percentage of the composite formed by each ETF is the same as that of the relevant asset class within that strategic asset allocation. The green benchmark represents the performance of cash based on the British Bankers Association - LIBOR 12 Month GBP rate. All data has been obtained from the Telekurs data exchange.

*Performance data does not exist before the 03 Nov 2008 as the fund had not launched.

ASSET ALLOCATION

NOTIONAL UNITS

You should be aware that units for SMARTfund operate very differently to a conventional unit trust. Units in the SMARTfund Advantage are created and priced uniquely for each unit holder. For further information on how the unit price is calculated, you should refer to the Prospectus. If you have already invested in the SMARTfund you should login to check your own current and historic prices.

The figures below are based on a notional unit issued on the date of inception for the fund, with an initial capital value the same as the minimum investment amount for the fund, i.e. £3,000.00.

Notional Unit Price and Income

	Highest Price	Lowest Price	Net Income
6 months to 03.05.2010	£4,567.49	£3,847.23	£13.41
03.11.08 to 03.11.2009	£4,129.52	£2,632.77	£17.01

Net Asset Value for Notional Unit

	03.05.2010	03.11.2009
	£4,472.18	£3,819.10

Distribution Statement for Notional Unit

Distribution Payment Dates	Distribution Amount (£)
November 2009	-
December 2009	2.29
January 2010	2.70
February 2010	0.63
March 2010	5.20
April 2010	2.58

The sub-funds accrue distributions on a daily basis and pay any income available to the unitholder on a monthly basis, three and a half months in arrears. All distributions are paid net of income tax.

TOTAL EXPENSE RATIO (TER)

	03.05.2010
Annualised TER	1.07%
Annualised Synthetic TER	2.06%

The Annualised TER reflects the annual operating expenses of the SMARTfund to the average daily net asset value of each sub-fund. The Annualised Synthetic TER incorporates the TERs of the underlying funds held within each sub-fund. These figures have been calculated on the basis of an AMC for the SMARTfund which does not include any Adviser Charging. Adviser Charging is specific to each individual unitholder and is included as a component within the AMC for that unit holder.

Adviser Charging: the amount of remuneration that the Investor agrees with their Adviser that the Manager will pay the Adviser for services provided.

OTHER INFORMATION

The information included in this document is designed to enable Investors to make an informed judgement on the activities of the fund during the stated period and the results of those activities at the end of the period. More information regarding these activities and performance of this fund over this period can be obtained from the Manager. The Long Report is available on request from the Manager.
